

Solution Brief

Microsoft Threat Protection Workshop

Overview

Organisations today are managing a growing volume of data and alerts while dealing with tight budgets and vulnerable legacy systems. Get help achieving your broader security objectives—and identify current and real threats—by scheduling a Microsoft Threat Protection Workshop.

We can help you develop a strategic plan customised for your organisation and based on the recommendations of Microsoft cybersecurity experts. You'll gain visibility into immediate threats across email, identity, and data, plus clarity and support on how to upgrade your security posture for the long term.

Our partner

Workshop highlights

-  Review your security goals and objectives
-  Identify real threats in your cloud environment
-  Map identified threats to specific solution
-  Showcase security scenarios with product demos
-  Develop joint plans and next steps

Related Services

- Insight Microsoft 365 Security Mini-Audit
- Insight Microsoft 365 Security Assessment
- Insight Sentinel Quickstart

Our solution

We'll partner with you during this workshop to strengthen your organisation's approach to cybersecurity. We'll help you better understand how to prioritise and mitigate potential attacks with:

- Deep analysis of cyberattack threats that are found targeting your organisation
- Actionable recommendations to help immediately reduce the identified threats
- A detailed assessment of your IT and security priorities and initiatives, direct from cybersecurity pros
- An inside look at Microsoft's holistic approach to security and how it relates to your organisation
- Demonstrations of integrated security, including the latest tools and methods
- Long-term recommendations from Microsoft experts about your security strategy, with key initiatives and tactical next steps

What to expect

					
Pre-engagement call with Insight security consultant	Kick-off meeting	Cloud discovery log collection	Threat exploration	Threat results presentation	Engagement decommissioning

Business outcomes

Given the volume and complexity of identities, data, applications, devices, and infrastructure, it's essential to learn how secure your organisation is right now and how to mitigate and protect against threats moving forward. By attending this workshop, you can:

Identify current, ongoing security threats in your cloud environment

Walk away with actionable next steps based on your specific needs and objectives

Document your security strategy for the benefit of key stakeholders

Better understand how to accelerate your security journey using the latest tools

Why Insight?

Today, technology isn't just supporting the business; it's becoming the business. At Insight, we help you navigate complex challenges to develop new solutions and processes. We will help you manage today's priorities and prepare for tomorrow's needs.
