

Streamline Mac Deployment

Insight is including a 1-hour consultation on device deployment

Purchase five or more Mac® devices to get a complimentary consultation with Apple® experts.

Streamline Mac deployment with a trusted partner

Get work done at full speed with the high-performance, thin and light notebooks by Apple. Insight will help your agency master device deployment through a complimentary consultation when you procure five or more Mac devices. This one-hour engagement will teach your team Apple best practices, devices lifecycles, built-in features for business, mobile device management and anything else needed to help your organization successfully — and seamlessly — adopt an Apple strategy

Further maximize your Apple investments with Insight as we deliver:

Apple Readiness
Assessments

Centralized procurement
and flexible financing

Custom provisioning
and packaging

Mobile device
management
configuration and support

Total lifecycle
management

Together, Insight and Apple help your agency deploy devices in the most cost-efficient and flexible way — no matter the scale. We offer solutions for networking, applications and security. From planning and deployment to support and refresh, we can help you optimize your technology investments.

To receive a free consultation, eligible customers must
1) purchase five or more Mac notebooks or computers starting from March 10, 2020 and
2) have spent less than \$50k on Mac devices over the last 12 months.
