Organizational challenge

The education landscape is shifting rapidly. While edtech can help address new paradigms in teaching and learning, embracing it can be daunting for IT on the backend — not to mention end users adjusting to new platforms on the frontend. How can you make sure the devices you invest in are best suited for your goals? As distance education puts pressure on schools to launch a plan quickly, what’s the most efficient way to deploy new devices within tight timelines? What connectivity, help desk and IT management options are most reliable without stressing resources and the budget?

Our solution

Insight Public Sector’s Connected Workforce solutions are designed to eliminate the complexity of edtech adoption, from planning and procurement to deployment, ongoing management and more — all through a single trusted source.

With end-to-end expertise and vast resources, you get a smarter, more strategic way to get the right devices, to the right people, at the right time.

- 3,500+ partnerships with leading technology vendors
- 500,000+ devices deployed annually
- 1,600+ service desk and field technicians
- 1.5M+ devices managed
- 1M+ end users supported
- 5 fully redundant U.S.-based service desks

Benefits

- **Get predictable, flexible pricing** that simplifies budgeting.
- **Easily install and refresh technology** to adapt to change.
- **Streamline and increase efficiency** for every stage of the IT lifecycle
- **Ensure seamless experiences** for end users anytime, from anywhere.
- **Solve challenges faster** with access to Insight’s deep pool of resources.
About Insight Public Sector

At Insight Public Sector, we help organizations of all sizes navigate complex challenges through our four key solution areas: Digital Innovation, Cloud + Data Center Transformation, Connected Workforce and Supply Chain Optimization. With deep expertise and end-to-end capabilities, we’ll help you manage today’s priorities and prepare for tomorrow’s needs.

Insight Public Sector can scale the solutions to a school district, statewide or regional/metro level.
