

# Insight Public Sector for Devices

Drive value throughout the device lifecycle.

## Organizational challenge

Devices are instrumental to operations in the public sector. They empower communication, collaboration and productivity. They enable organizations to be competitive, strategic and innovative. No organization could function well without devices — billions are in use today.

However, challenges abound. It's difficult to procure and maintain a functional fleet of devices. Managing multiple vendors requires time and resources. Meeting user needs is an ongoing demand. Keeping up with refresh cycles and asset management can get complicated, fast.

## Our solution

Insight Public Sector has a different vision — simplified, full device lifecycle support all from a single partner. We know that anyone can sell you a laptop or tablet. We offer more, helping you maximize value and continually improve your device ecosystem.

### Partner with Insight to:

-  Ensure maximum uptime and device lifespans.
-  Bring device choices to employees without adding complexity.
-  Eliminate the time and hassle of managing multiple vendors.
-  Improve the end-user experience from refresh to support.
-  Drive down device costs and employ modern management.

## Benefits

- Drive efficiencies with a single device partner.
- Scale or change device strategies with ease.
- Lower total cost of ownership of devices.
- Introduce an employee choice program.
- Fulfill device needs quickly and securely.

## Our partners

## Related services

- Device as a Service
- Mac Enablement Program
- E-procurement

# Full lifecycle support

Insight brings expertise, resources and support to each phase of the device lifecycle and helps you streamline so you can stay focused on higher-level strategic priorities.

Advanced ISO 9001:2015 certified labs
 Repeatable and scalable models
 Dedicated OEM partner teams

## Insight Connected Platform

Connected devices open up new worlds of possibility. Create solutions using Insight Connected Platform, a flexible and scalable foundation for any smart space. Using Microsoft® Azure®, the platform ingests, visualizes and triggers events from any data source — from consumer devices to third-party applications.

### Sample use cases include:

- Loss prevention, inventory analysis and customer purchase forecasting
- Predictive maintenance for manufacturing equipment
- Automation of streetlights and traffic signals for emergency response
- Securely providing healthcare patient information to the right clinicians at the right time

## About Insight Public Sector

At Insight Public Sector, we help organizations of all sizes navigate complex challenges through our four key solution areas: Digital Innovation, Cloud + Data Center Transformation, Connected Workforce and Supply Chain Optimization. With deep expertise and end-to-end capabilities, we'll help you manage today's priorities and prepare for tomorrow's needs.
